SUBCHAPTER XIV—BANK RESERVES

§ 461. Reserve requirements

(a) Establishment of applicable definitions, payment of interest, obligations as deposits, and regulations

The Board is authorized for the purposes of this section¹ to define the terms used in this section,¹ to determine what shall be deemed a payment of interest, to determine what types of obligations, whether issued directly by a member bank or indirectly by an affiliate of a member bank or by other means, and, regardless of the use of the proceeds, shall be deemed a deposit, and to prescribe such regulations as it may deem necessary to effectuate the purposes of this section¹ and to prevent evasions thereof.

(b) Additional definitions; required amounts of reserves maintained against transaction accounts; waiver of ratio limits in extraordinary circumstances; supplemental reserves; reserves related to foreign obligations or assets; exemption for certain deposits; discount and borrowing; transitional adjustments; additional exemptions and waivers; earnings on balances

(1) The following definitions and rules apply to this subsection, subsection (c), and sections 248-1, 248a, 342, 360, and 412 of this title:

(A) The term “depository institution” means—

(i) any insured bank as defined in section 3 of the Federal Deposit Insurance Act [12 U.S.C. 1813] or any bank which is eligible to make application to become an insured bank under section 5 of such Act [12 U.S.C. 1815];

(ii) any mutual savings bank as defined in section 3 of the Federal Deposit Insurance Act or any bank which is eligible to make application to become an insured bank under section 5 of such Act;

(iii) any savings bank as defined in section 3 of the Federal Deposit Insurance Act or any bank which is eligible to make application to become an insured bank under section 5 of such Act;

(iv) any insured credit union as defined in section 1752 of this title or any credit union which is eligible to make application to become an insured credit union pursuant to section 1781 of this title;

(v) any member as defined in section 1422 of this title;

(vi) any savings association (as defined in section 3 of the Federal Deposit Insurance Act [12 U.S.C. 1813]) which is an insured depository institution (as defined in such Act [12 U.S.C. 1811 et seq.]) or is eligible to apply to become an insured depository institution under the Federal Deposit Insurance Act; and

(vii) for the purpose of sections 248-1, 342 to 347, 347c, 347d, and 372 of this title, any association or entity which is wholly owned by or which consists only of institutions referred to in clauses (i) through (vi).

(B) The term “bank” means any insured or noninsured bank, as defined in section 3 of the

¹ See References in Text note below.

Federal Deposit Insurance Act [12 U.S.C. 1813], other than a mutual savings bank or a savings bank as defined in such section.

(C) The term "transaction account" means a deposit or account on which the depositor or account holder is permitted to make withdrawals by negotiable or transferable instrument, payment orders of withdrawal, telephone transfers, or other similar items for the purpose of making payments or transfers to third persons or others. Such term includes demand deposits, negotiable order of withdrawal accounts, savings deposits subject to automatic transfers, and share draft accounts.

(D) The term "nonpersonal time deposits" means a transferable time deposit or account or a time deposit or account representing funds deposited to the credit of, or in which any beneficial interest is held by, a depositor who is not a natural person.

(E) The term "reservable liabilities" means transaction accounts, nonpersonal time deposits, and all net balances, loans, assets, and obligations which are, or may be, subject to reserve requirements under paragraph (5).

(F) In order to prevent evasions of the reserve requirements imposed by this subsection, after consultation with the Board of Directors of the Federal Deposit Insurance Corporation, the Comptroller of the Currency, and the National Credit Union Administration Board, the Board of Governors of the Federal Reserve System is authorized to determine, by regulation or order, that an account or deposit is a transaction account if such account or deposit may be used to provide funds directly or indirectly for the purpose of making payments or transfers to third persons or others.

(2)(A) Each depository institution shall maintain reserves against its transaction accounts as the Board may prescribe by regulation solely for the purpose of implementing monetary policy—

(i) in a ratio of not greater than 3 percent (and which may be zero) for that portion of its total transaction accounts of \$25,000,000 or less, subject to subparagraph (C); and

(ii) in the ratio of 12 per centum, or in such other ratio as the Board may prescribe not greater than 14 per centum (and which may be zero), for that portion of its total transaction accounts in excess of \$25,000,000, subject to subparagraph (C).

(B) Each depository institution shall maintain reserves against its nonpersonal time deposits in the ratio of 3 per centum, or in such other ratio not greater than 9 per centum and not less than zero per centum as the Board may prescribe by regulation solely for the purpose of implementing monetary policy.

(C) Beginning in 1981, not later than December 31 of each year the Board shall issue a regulation increasing for the next succeeding calendar year the dollar amount which is contained in subparagraph (A) or which was last determined pursuant to this subparagraph for the purpose of such subparagraph, by an amount obtained by multiplying such dollar amount by 80 per centum of the percentage increase in the total transaction accounts of all depository institutions. The increase in such transaction accounts shall be determined by subtracting the amount

of such accounts on June 30 of the preceding calendar year from the amount of such accounts on June 30 of the calendar year involved. In the case of any such 12-month period in which there has been a decrease in the total transaction accounts of all depository institutions, the Board shall issue such a regulation decreasing for the next succeeding calendar year such dollar amount by an amount obtained by multiplying such dollar amount by 80 per centum of the percentage decrease in the total transaction accounts of all depository institutions. The decrease in such transaction accounts shall be determined by subtracting the amount of such accounts on June 30 of the calendar year involved from the amount of such accounts on June 30 of the previous calendar year.

(D) Any reserve requirement imposed under this subsection shall be uniformly applied to all transaction accounts at all depository institutions. Reserve requirements imposed under this subsection shall be uniformly applied to nonpersonal time deposits at all depository institutions, except that such requirements may vary by the maturity of such deposits.

(3) Upon a finding by at least 5 members of the Board that extraordinary circumstances require such action, the Board, after consultation with the appropriate committees of the Congress, may impose, with respect to any liability of depository institutions, reserve requirements outside the limitations as to ratios and as to types of liabilities otherwise prescribed by paragraph (2) for a period not exceeding 180 days, and for further periods not exceeding 180 days each by affirmative action by at least 5 members of the Board in each instance. The Board shall promptly transmit to the Congress a report of any exercise of its authority under this paragraph and the reasons for such exercise of authority.

(4)(A) The Board may, upon the affirmative vote of not less than 5 members, impose a supplemental reserve requirement on every depository institution of not more than 4 per centum of its total transaction accounts. Such supplemental reserve requirement may be imposed only if—

(i) the sole purpose of such requirement is to increase the amount of reserves maintained to a level essential for the conduct of monetary policy;

(ii) such requirement is not imposed for the purpose of reducing the cost burdens resulting from the imposition of the reserve requirements pursuant to paragraph (2);

(iii) such requirement is not imposed for the purpose of increasing the amount of balances needed for clearing purposes; and

(iv) on the date on which the supplemental reserve requirement is imposed, except as provided in paragraph (11), the total amount of reserves required pursuant to paragraph (2) is not less than the amount of reserves that would be required if the initial ratios specified in paragraph (2) were in effect.

(B) The Board may require the supplemental reserve authorized under subparagraph (A) only after consultation with the Board of Directors of the Federal Deposit Insurance Corporation, the Comptroller of the Currency, and the National Credit Union Administration Board. The Board

shall promptly transmit to the Congress a report with respect to any exercise of its authority to require supplemental reserves under subparagraph (A) and such report shall state the basis for the determination to exercise such authority.

(C) If a supplemental reserve under subparagraph (A) has been required of depository institutions for a period of one year or more, the Board shall review and determine the need for continued maintenance of supplemental reserves and shall transmit annual reports to the Congress regarding the need, if any, for continuing the supplemental reserve.

(D) Any supplemental reserve imposed under subparagraph (A) shall terminate at the close of the first 90-day period after such requirement is imposed during which the average amount of reserves required under paragraph (2) are less than the amount of reserves which would be required during such period if the initial ratios specified in paragraph (2) were in effect.

(5) Foreign branches, subsidiaries, and international banking facilities of nonmember depository institutions shall maintain reserves to the same extent required by the Board of foreign branches, subsidiaries, and international banking facilities of member banks. In addition to any reserves otherwise required to be maintained pursuant to this subsection, any depository institution shall maintain reserves in such ratios as the Board may prescribe against—

(A) net balances owed by domestic offices of such depository institution in the United States to its directly related foreign offices and to foreign offices of nonrelated depository institutions;

(B) loans to United States residents made by overseas offices of such depository institution if such depository institution has one or more offices in the United States; and

(C) assets (including participations) held by foreign offices of a depository institution in the United States which were acquired from its domestic offices.

(6) The requirements imposed under paragraph (2) shall not apply to deposits payable only outside the States of the United States and the District of Columbia, except that nothing in this subsection limits the authority of the Board to impose conditions and requirements on member banks under section 25 of this Act [12 U.S.C. 601 et seq.] or the authority of the Board under section 3105 of this title.

(7) Any depository institution in which transaction accounts or nonpersonal time deposits are held shall be entitled to the same discount and borrowing privileges as member banks. In the administration of discount and borrowing privileges, the Board and the Federal Reserve banks shall take into consideration the special needs of savings and other depository institutions for access to discount and borrowing facilities consistent with their long-term asset portfolios and the sensitivity of such institutions to trends in the national money markets.

(8)(A) Any depository institution required to maintain reserves under this subsection which was engaged in business on July 1, 1979, but was not a member of the Federal Reserve System on or after that date, shall maintain reserves

against its deposits during the first twelve-month period following the effective date of this paragraph in amounts equal to one-eighth of those otherwise required by this subsection, during the second such twelve-month period in amounts equal to one-fourth of those otherwise required, during the third such twelve-month period in amounts equal to three-eighths of those otherwise required, during the fourth twelve-month period in amounts equal to one-half of those otherwise required, and during the fifth twelve-month period in amounts equal to five-eighths of those otherwise required, during the sixth twelve-month period in amounts equal to three-fourths of those otherwise required, and during the seventh twelve-month period in amounts equal to seven-eighths of those otherwise required. This subparagraph does not apply to any category of deposits or accounts which are first authorized pursuant to Federal law in any State after April 1, 1980.

(B) With respect to any bank which was a member of the Federal Reserve System during the entire period beginning on July 1, 1979, and ending on the effective date of the Monetary Control Act of 1980, the amount of required reserves imposed pursuant to this subsection on and after the effective date of such Act that exceeds the amount of reserves which would have been required of such bank if the reserve ratios in effect during the reserve computation period immediately preceding such effective date were applied may, at the discretion of the Board and in accordance with such rules and regulations as it may adopt, be reduced by 75 per centum during the first year which begins after such effective date, 50 per centum during the second year, and 25 per centum during the third year.

(C)(i) With respect to any bank which is a member of the Federal Reserve System on the effective date of the Monetary Control Act of 1980, the amount of reserves which would have been required of such bank if the reserve ratios in effect during the reserve computation period immediately preceding such effective date were applied that exceeds the amount of required reserves imposed pursuant to this subsection shall, in accordance with such rules and regulations as the Board may adopt, be reduced by 25 per centum during the first year which begins after such effective date, 50 per centum during the second year, and 75 per centum during the third year.

(ii) If a bank becomes a member bank during the four-year period beginning on the effective date of the Monetary Control Act of 1980, and if the amount of reserves which would have been required of such bank, determined as if the reserve ratios in effect during the reserve computation period immediately preceding such effective date were applied, and as if such bank had been a member during such period, exceeds the amount of reserves required pursuant to this subsection, the amount of reserves required to be maintained by such bank beginning on the date on which such bank becomes a member of the Federal Reserve System shall be the amount of reserves which would have been required of such bank if it had been a member on the day before such effective date, except that the amount of such excess shall, in accordance with

such rules and regulations as the Board may adopt, be reduced by 25 per centum during the first year which begins after such effective date, 50 per centum during the second year, and 75 per centum during the third year.

(D)(i) Any bank which was a member bank on July 1, 1979, and which withdrew from membership in the Federal Reserve System during the period beginning July 1, 1979, and ending on March 31, 1980, shall maintain reserves during the first twelve-month period beginning on October 15, 1982, in amounts equal to one-half of those otherwise required by this subsection, during the second such twelve-month period in amounts equal to two-thirds of those otherwise required, and during the third such twelve-month period in amounts equal to five-sixths of those otherwise required.

(ii) Any bank which withdraws from membership in the Federal Reserve System after March 31, 1980, shall maintain reserves in the same amount as member banks are required to maintain under this subsection, pursuant to subparagraphs (B) and (C)(i).

(E) This subparagraph applies to any depository institution that, on August 1, 1978, (i) was engaged in business as a depository institution in a State outside the continental limits of the United States, and (ii) was not a member of the Federal Reserve System at any time on or after such date. Such a depository institution shall not be required to maintain reserves against its deposits held or maintained at its offices located in a State outside the continental limits of the United States until the first day of the sixth calendar year which begins after the effective date of the Monetary Control Act of 1980. Such a depository institution shall maintain reserves against such deposits during the sixth calendar year which begins after such effective date in an amount equal to one-eighth of that otherwise required by paragraph (2), during the seventh such year in an amount equal to one-fourth of that otherwise required, during the eighth such year in an amount equal to three-eighths of that otherwise required, during the ninth such year in an amount equal to one-half of that otherwise required, during the tenth such year in an amount equal to five-eighths of that otherwise required, during the eleventh such year in an amount equal to three-fourths of that otherwise required, and during the twelfth such year in an amount equal to seven-eighths of that otherwise required.

(9) This subsection shall not apply with respect to any financial institution which—

(A) is organized solely to do business with other financial institutions;

(B) is owned primarily by the financial institutions with which it does business; and

(C) does not do business with the general public.

(10) In individual cases, where a Federal supervisory authority waives a liquidity requirement, or waives the penalty for failing to satisfy a liquidity requirement, the Board shall waive the reserve requirement, or waive the penalty for failing to satisfy a reserve requirement, imposed pursuant to this subsection for the depository institution involved when requested by the Federal supervisory authority involved.

(11)(A)(i) Notwithstanding the reserve requirement ratios established under paragraphs (2) and (5) of this subsection, a reserve ratio of zero per centum shall apply to any combination of reservable liabilities, which do not exceed \$2,000,000 (as adjusted under subparagraph (B)), of each depository institution.

(ii) Each depository institution may designate, in accordance with such rules and regulations as the Board shall prescribe, the types and amounts of reservable liabilities to which the reserve ratio of zero per centum shall apply, except that transaction accounts which are designated to be subject to a reserve ratio of zero per centum shall be accounts which would otherwise be subject to a reserve ratio of 3 per centum under paragraph (2).

(iii) The Board shall minimize the reporting necessary to determine whether depository institutions have total reservable liabilities of less than \$2,000,000 (as adjusted under subparagraph (B)). Consistent with the Board's responsibility to monitor and control monetary and credit aggregates, depository institutions which have reserve requirements under this subsection equal to zero per centum shall be subject to less overall reporting requirements than depository institutions which have a reserve requirement under this subsection that exceeds zero per centum.

(B)(i) Beginning in 1982, not later than December 31 of each year, the Board shall issue a regulation increasing for the next succeeding calendar year the dollar amount specified in subparagraph (A), as previously adjusted under this subparagraph, by an amount obtained by multiplying such dollar amount by 80 per centum of the percentage increase in the total reservable liabilities of all depository institutions.

(ii) The increase in total reservable liabilities shall be determined by subtracting the amount of total reservable liabilities on June 30 of the preceding calendar year from the amount of total reservable liabilities on June 30 of the calendar year involved. In the case of any such twelve-month period in which there has been a decrease in the total reservable liabilities of all depository institutions, no adjustment shall be made. A decrease in total reservable liabilities shall be determined by subtracting the amount of total reservable liabilities on June 30 of the calendar year involved from the amount of total reservable liabilities on June 30 of the previous calendar year.

(12) EARNINGS ON BALANCES.—

(A) IN GENERAL.—Balances maintained at a Federal Reserve bank by or on behalf of a depository institution may receive earnings to be paid by the Federal Reserve bank at least once each calendar quarter, at a rate or rates not to exceed the general level of short-term interest rates.

(B) REGULATIONS RELATING TO PAYMENTS AND DISTRIBUTIONS.—The Board may prescribe regulations concerning—

(i) the payment of earnings in accordance with this paragraph;

(ii) the distribution of such earnings to the depository institutions which maintain balances at such banks, or on whose behalf such balances are maintained; and

(iii) the responsibilities of depository institutions, Federal Home Loan Banks, and the National Credit Union Administration Central Liquidity Facility with respect to the crediting and distribution of earnings attributable to balances maintained, in accordance with subsection (c)(1)(A), in a Federal Reserve bank by any such entity on behalf of depository institutions.

(C) DEPOSITORY INSTITUTIONS DEFINED.—For purposes of this paragraph, the term “depository institution”, in addition to the institutions described in paragraph (1)(A), includes any trust company, corporation organized under section 25A [12 U.S.C. 611 et seq.] or having an agreement with the Board under section 25 [12 U.S.C. 601 et seq.], or any branch or agency of a foreign bank (as defined in section 3101 of this title).

(c) Promulgation of rules and regulations respecting maintenance of balances

(1) Reserves held by a depository institution to meet the requirements imposed pursuant to subsection (b) shall, subject to such rules and regulations as the Board shall prescribe, be in the form of—

(A) balances maintained for such purposes by such depository institution in the Federal Reserve bank of which it is a member or at which it maintains an account, except that (i) the Board may, by regulation or order, permit depository institutions to maintain all or a portion of their required reserves in the form of vault cash, except that any portion so permitted shall be identical for all depository institutions, and (ii) vault cash may be used to satisfy any supplemental reserve requirement imposed pursuant to subsection (b)(4), except that all such vault cash shall be excluded from any computation of earnings pursuant to subsection (b); and

(B) balances maintained by a depository institution in a depository institution which maintains required reserve balances at a Federal Reserve bank, in a Federal Home Loan Bank, or in the National Credit Union Administration Central Liquidity Facility, if such depository institution, Federal Home Loan Bank, or National Credit Union Administration Central Liquidity Facility maintains such funds in the form of balances in a Federal Reserve bank of which it is a member or at which it maintains an account. Balances received by a depository institution from a second depository institution and used to satisfy the reserve requirement imposed on such second depository institution by this section shall not be subject to the reserve requirements of this section imposed on such first depository institution, and shall not be subject to assessments or reserves imposed on such first depository institution pursuant to section 7 of the Federal Deposit Insurance Act (12 U.S.C. 1817), section 404 of the National Housing Act (12 U.S.C. 1727),¹ or section 202 of the Federal Credit Union Act (12 U.S.C. 1782).

(2) The balances maintained to meet the reserve requirements of subsection (b) by a depository institution in a Federal Reserve bank or

passed through a Federal Home Loan Bank or the National Credit Union Administration Central Liquidity Facility or another depository institution to a Federal Reserve bank may be used to satisfy liquidity requirements which may be imposed under other provisions of Federal or State law.

The funds derived from such assessments, fees, or charges may be deposited by the Comptroller of the Currency in accordance with the provisions of section 192 of this title and shall not be construed to be Government funds or appropriated monies; and the Comptroller of the Currency is authorized and empowered to prescribe regulations governing the computation and assessment of the expenses of examinations herein provided for and the collection of such assessments from the banks and/or affiliates examined or of other fees or charges imposed pursuant to this subchapter. Such funds shall not be subject to apportionment for the purpose of chapter 15 of title 31 or under any other authority. If any affiliate of a national bank shall refuse to permit an examiner to make an examination of the affiliate or shall refuse to give any information required in the course of any such examination, the national bank with which it is affiliated shall be subject to a penalty of not more than \$5,000 for each day that any such refusal shall continue. Such penalty may be assessed by the Comptroller of the Currency and collected in the same manner as expenses of examinations.
